

Fidelidade Macau Life - Insurance Company Limited
Fulfillment ratios for Participating Products for Reporting Year 2023

The following fulfillment ratio table shows participating products underwritten by Fidelidade Macau Life – Insurance Company Limited (hereinafter referred to as "Fidelidade Life") with non-guaranteed dividends/bonuses which has new policies issued in the previous 10 calendar years prior to the reporting year.

Please be reminded that the fulfillment ratios shown below are historical figures and are not an indicator of the future performance of participating products.

For the purpose of calculation of fulfillment ratios, it is assumed that:

- all declared dividends are left with Fidelidade Life for interest accumulation since policy issuance; and
- there is no change in the notional amount/guaranteed annual income of the policies since policy issuance.

Notes:

1. The fulfillment ratios are calculated as the ratio of aggregate actual accumulated non-guaranteed annual/terminal dividends against the illustrated amounts at the point of sale for all relevant in force policies.
2. Fulfillment ratios may not be applicable (that is, shown as “N/A” in the results above) due to one or more of the following reason(s):
 - No relevant policy is in force with the respective policy year in the reporting year;
 - The amount of non-guaranteed annual/terminal dividends and interests illustrated at the point of sale up to the corresponding policy years is zero for the relevant policies.
