## 可持續發展的投資方式

### Sustainable Investment Approach

忠誠人壽與客戶同樣關心對全球可持續發展因素的正面及實際影響。本產品當中大部分資產將投資在有利「環境、社會及管治」(ESG) 特色的企業債務證券。

我們以可持續的投資方式，首選投資於綠色金融、再生能源、醫療保健、科技、通訊及媒體等產業，此外亦優先選擇具有優良 ESG 特徵並能長期及短期地推動大眾利益改革的企業。我們不會投資於不利可持續發展的產業，如熱能煤、爭議性武器、煙草業及 ESG 評級未如理想的企業。

Fidelidade Life shares its clients' concerns for a positive and real impact on global sustainable factors. The product invests most of its assets in debt securities of companies with favourable environmental, social and governance (ESG) characteristics.

Our sustainable investment approach prioritizes investing in industries like green finance, renewable energies, healthcare, technology, media and telecommunications, and in companies with favourable ESG characteristics that can drive real change for the common good in the short and long term. We will not invest in industries that may raise sustainability concerns like thermal coal, controversial weapons and tobacco nor in companies with adverse ESG ratings.
